

**Port Everglades, FL**  
12'w x 8'h Rigid Rolling Walls used to  
separated security screening areas.

Our Rolling Wall Systems offer robust, movable walls tailored to suit the unique requirements of your location.

**Versatility and flexibility rolled into one:**

- ▶ Divide larger areas into temporary rooms.
- ▶ Create temporary storage areas to hide materials.
- ▶ Provide player viewing access for fans with physical boundaries for an up-close, yet safe fan experience.
- ▶ Create portable privacy & screening areas on demand.
- ▶ Temporarily restrict access to unauthorized areas.
- ▶ Custom printing allow for branding and messaging opportunities.

# Rigid Rolling Walls

Model RWR

8'W x 6'H Rigid Rolling Wall with White Sintra Panels.

## Rigid Rolling Walls provide the largest and most durable portable partitions.

Utilize these sturdy, mobile walls for creating temporary partitions, indoor/outdoor privacy rooms and more. Great for straight runs of long distances.

Crafted with a robust, heavy gauge aluminum frame and premium construction, these walls are built to endure the toughest wear and tear.

### Features:

- Locking Wheels
- Sturdy 1/4" Panels
- Heavy Gauge Aluminum Frame

# Folding Rolling Walls

## Model RWF

### Folding Rolling Wall barriers for easier portability and added flexibility.

These barriers' foldable design enhances versatility, making them suitable for a wide array of uses. From creating rooms on the fly, to dividing an area into sections for different uses, these rolling walls allow you to change your space with ease. When folded, the smaller footprint makes it easier to transport and store.

With lockable wheels, these rolling walls offer stability when needed and effortless mobility for relocation. The sturdy construction ensures minimal flexing, enabling multiple panels to be seamlessly moved at once.

#### Features:

- Locking Wheels
- Sturdy 1/8" or 1/4" panels
- Heavy Gauge Aluminum Frame

12'W x 8'H Foldable Rolling Wall with Clear Acrylic Panels

# Rolling Panels

## Model RWP

### Rolling Panels provide a simple and easy to move partition.

Equipped with the same high end construction and materials as our folding rolling walls, these single panel walls are a great asset when there is less space or there is no need for additional panels or folding.

**United Airlines, NJ**  
4'w x 8'h Single Rolling Panel with Printing used to create secondary screening areas at boarding gates.

# Options

## 1/8" or 1/4" Frame Insert Materials

Choose a plain, clear or opaque insert, or print custom messages on any of these standard materials.

- **Sintra** is a closed-cell PVC board that is a light-weight rigid material.
- **ACM** is a rigid Polyethylene sheet that has aluminum sheets on each side. This creates a durable solid material that is ideal for printing.
- **Acrylic (plexiglas, lucite)** has a high-impact strength and is available in a variety of colors and finishes including clear, frosted, or tinted.
- **Custom insert materials and thicknesses** are also available, including glass, metals, and other sintra colors.

*Due to printing limitations, colors shown may not represent actual product colors. Please call for samples if required.*
