

Featured Product: Model HPSC

Compact storage. Easy transportation.

Store posts efficiently and transport them easily with the Horizontal Post Cart, available in 12 and 24 post capacities. The 24 post model is the largest capacity on the market and allows you to store 24 posts in just a 45" wide x 34.5" long space, compared to 54" wide x 84" long for posts stored on the floor — that's 1/3rd the storage footprint.

Compact shipping: via UPS or FedEx to avoid expensive freight costs.

Small storage footprint: store posts horizontally when not in use instead of using up floor space.

Assembles quickly and easily: in about a half hour by one or two people, compared to up to an hour and a half for other similar storage carts. All tools and hardware included.

Additional Features

- ▶ Compatible with all manufacturer's retractable or conventional stanchions up to 2 3/4" diameter.
- ▶ The HSPC-24 will fit through standard 80" doorways with 21 posts loaded on the cart.
- ▶ **Padded surfaces:** protect the post finish.
- ▶ **Bungees:** secure posts on top rack of 24 Post Cart.

Swivel wheels: maneuver the cart easily but lock into place when stationary.

Upgrade from a 12 to 24 capacity cart: easily add extension at any time.

Dimensions	Empty	Full
12 Post Cart	33"L x 33" W x 42" H	45"L x 34.5"W x 45"H
24 Post Cart	33"L x 33" W x 77" H	45"L x 34.5"W x 81"H

Featured Product: Model VPSC-18

Quick, safe and efficient post storage.

The Vertical Post Storage Cart allows you to set up and break down queue lines safely and efficiently. Posts only require a 17" lift to load them onto the cart, reducing potential back injuries. Store and transport up to 18 posts at a time, or remove the top post rack to use as a standard flat cargo cart.

Posts only require a 17" lift:
no need to flip posts upside down or sideways to load the cart.

Versatile, multi-use flat cart: top post rack separates easily so it can be used as a regular flat cargo cart.

Swivel wheels: maneuver the cart easily and lock into place.

Bungees: secure posts to cart.

Additional Features

- ▶ Compatible with all manufacturer's retractable or conventional stanchions.
- ▶ **Padded surfaces:** protect the post finish.
- ▶ **Small storage footprint:** store posts when not in use instead of using floor space.
- ▶ **No assembly required:** comparable carts can take up to two hours to assemble.
- ▶ **Swivel wheels:** maneuver the cart easily but lock into place when stationary.

Transportation & Storage Carts for Other Products
